SUMMARY

I am a first-year student at Oregon State University and am interested in using data science to help in finding solutions to health issues. I have previously worked in customer service in various industries which has given me experience communicating with people of all backgrounds, circumstances, and needs.

EDUCATION

B.S. Biochemistry and Molecular Biology, Oregon State University — Expected June 2030
GPA: 3.90

Relevant coursework:

- Collaborated in and presented a high school project analyzing swing state voter demographics and proposing how presidential candidates can use that data to garner votes
